

CRUZ DEVELOPMENT · CHANDLER · MESA · GLENDALE, AZ

A serious builder shipping a placeholder site.

An at-a-glance read on how clearly an Arizona luxury custom home builder shows up in Google, ChatGPT, Perplexity, and the answer engines reshaping how high-intent buyers find their builder.

The 90-day arc

Sequenced so each phase makes the next work harder. Fix infrastructure first; rewrite for AI second; build content third; layer in polish fourth.

TOP 3 PRIORITIES — START HERE

01

Replace placeholder testimonials & portfolio cards.

"Enter quote here. — First LastTitle of Comany." is live on the homepage. The single most credibility-damaging item visible to a \$1M+ buyer.

02

Fix Mesa & Glendale city-page title bugs.

Mesa's <title> tag still says "Chandler"; Glendale's H3 also references Chandler. Templated artifacts actively suppressing local rankings.

03

Publish ROC#, address, bonded/insured.

Every direct competitor displays at least the ROC and address. The most visible trust deficit on Cruz's site today.

NEXT STEP

The full audit goes deeper.

15 pages — findings 4.1-4.6, the gap-by-gap impact ribbon, a 16-item priority checklist, and a \$9,937 founding-client scope tied to the audit.
