TOP 3 PRIORITIES — START HERE

01

Ship the multi-page site as scoped.

Single-page architecture caps every other channel. Service pages, city pages, FAQ blocks, schema all need somewhere to live first.

02

Build a dedicated EV Charger page.

EV install is in Stag's service mix and the highest-growth Phoenix electrician query. Castle Electrical owns this lane today; recoverable with real content + Tesla / Qmerit pursuit.

03

Display ROC# 343438 in footer of every page.

Two ROC licenses + BBB Accredited + BuildZoom 95 + HomeAdvisor 5.0★ all exist — none surface today. Compliance + trust signal in one move.
